08:56:40 From Nabila Anis Yahaya to Hosts and panelists : Business project development begin from 2017 - 2024 - Future Generations

From People To Planet - Human

As per my understanding on the importance of Education for Sustainable Development (ESD) which aims enabling people to think and act in a sustainable, future-oriented manner play crucial driver for the transformation towards SDG. The Sustainable Development Goals (SDGs) are a series of 17 goals fixed by the United Nations and adopted by 193 countries in 2015. Not all individuals even myself which born in year of 1987 aware to impliment and luckily that same year becoming the new educational journey, ESD - SDGs - The 10 principles - MDG - ESG - GHG even towards transitioning to Net Zero by implement in business project development frameworks and life guidelines So, I did understand from adults or young generations curiosity; What is SDGs actually? This also supported by research on; Outcome indicator development:

08:56:43 From Nabila Anis Yahaya to Hosts and panelists : Defining education for sustainable development outcomes for the individual level and connecting them to the SDGs.

08:57:07 From Michael Wanjuzi Makongo : I am also the GSFN Community East-Central Africa Chair with the Global Sustainable Futures Progress Through Partnership Network GSFN based in Uganda ug

08:57:38 From Edmond Bangalie Margai : Ensure Equitable Access: Efforts should be made to ensure equitable access to resources, including healthcare, education, and economic opportunities, for all young people. Decision-makers should work towards eliminating disparities and creating an inclusive society that values and respects the rights of all individuals.

Children must be taught how to think, not what to think. - Margaret Mead

Getting off the beaten track starting 2017 until present 2024 ahead by bringing business project development - From People to Planet - Human:

My perspectives through lesson learned and how I evolves in educational development by separate the ideas and meaning of "education" from "learning" needs to start with if I may quote;

"Ethics and Etiquette; The first is personal Integrity, the second is Transparency, and the third is Accountability. But, if you do not have the first, then the other two will deceived own lowest level of morale". - Founder/Director
