

## **The Nature-based Community of Practice will:**

- Building on recent work by UNEP, including its decision on Nature-based solutions (NbS) (resolution UNEA 5.5) from sharing knowledge, experience, and research relating to nature-based solutions, their scaling, and their contribution to accelerating progress towards the SDGs.
- Encourage the critical exchange of ideas based on practical experience, and knowledge from different contexts in the interest of advancing the understanding and practical applications of nature-based solutions.
- Share good practices on the design, piloting, and scaling of nature-based solutions for the SDGs, including the engagement of indigenous and local communities and their knowledge, and furthering rights-based approaches.
- Identify areas for cooperation, possible joint projects, and partnerships.
- Foster collaboration on future research and policy work to address research questions raised in the CoPs.
- Share and develop tool kits to facilitate the implementation of nature-based solutions as part of integrated SDG implementation.
- Link field experience and practice to policy.
